SECTION I: INTRODUCTION

A) PURPOSE

This document pertains to the scheduling of space for all events on campus, with the exception being academic classes and athletic competitions. This document is meant to provide guidance and consistency throughout the entire event process, including scheduling, planning, and execution.

B) OFFICE OF EVENTS AND CONFERENCE SERVICES

The Office of Events and Conference Services (ECS) is a Division within the Office of Business Services. ECS is responsible for approving and scheduling events, and coordinating with campus partners to provide equipment, resources, and staffing for events on the Coppin State University (“Coppin” or “University”) campus. ECS also markets Coppin spaces for external use.

This document is a body of policy designed to facilitate the mission of the *Events and Conference Services (ECS)* and its role at Coppin State University. The mission of ECS and is embodied in these goals:

1. In general, ECS exists to support the University in 2 main functions: A) Generate revenue from renting University space and providing basic event service to external clients, and B) Support department and student organizations hosting events in University space.
2. Centralize the process for scheduling various spaces throughout the campus by receiving requests and information from all campus and non-campus departments and organizations.
3. Minimize scheduling conflicts throughout the campus community.
4. Maintain and enforce consistent scheduling policies, priorities and procedures.
5. Maintain and enforce contracts for rental spaces.
6. Increase the degree of campus-wide communication relative to scheduling.
7. Increase the degree of campus awareness with regard to campus events.
8. Provide a designated liaison to the local community with regard to scheduling of programs and events.
9. Increase the use of campus spaces, thus providing additional revenue to the University.
10. Provide efficient and timely information to coordinate campus events.
11. Aid in the coordination of academic and non-academic scheduling priorities.
12. Event Coordinators shall assist in organizing security, housekeeping, parking services, audio/visual needs, catering, and other essential support services.
13. ECS Staff meets with campus partners on a weekly basis to discuss operation and execution of upcoming events. These campus partners include, but are not limited to: Office of Public Safety, Facilities Management, Institutional Advancement, Visual and Performing Arts, Office of Auxiliary Services, Office of University Relations,

Office of Student Activities, Athletics, Health and Human Performance, Aquatics, and Academic Affairs, Housekeeping, and Parking and Transportation Services. Campus partners offer advice, guidance and assistance in identifying needs, provide notification of potential conflicts, and makes approval or denial decisions for space use requests to the management team of ECS.

SECTION II: GENERAL POLICIES AND PROCEDURES

A) CATEGORIES OF EVENTS

Events and Conference Services categorizes the events that are handled through our office in three separate categories. These categories are vital to understand in order to determine method of requesting space, processing requests, handling requirements, and issuing costs.

University Event is defined as an event for a Coppin State University Department or student group (recognized by the SGA) where the charges are applied to a CSU PeopleSoft Account. This would include events “Hosted” by University departments or student groups, so long as their target audience remains the Coppin State Campus Community. University Events do not require a contract. University Events are conducted at cost, meaning there is no rental space charge. Any costs produced by the execution of the event will be accrued by the department or student group CSU PeopleSoft Account. Account billing information must be provided to ECS in order to proceed with event.

Affiliated Event is defined as any of the following: external organization’s event coordinated with a CSU Department or SGA recognized student group; State of Maryland Agencies; Baltimore City Agencies; USM Institution; charitable community organizations; and university professional associations; and non-profit/not-for-profit organizations. Also included are CSU alumni and employee events for individual/personal use. Affiliated Events may require a contract at the discretion of Events and Conference Services. Affiliated Groups are eligible for a 50% reduction in ECS-related costs, such as Rental and Audio Visual Equipment. They are responsible for full price for all other expenses, included but not limited to: housekeeping, food services, parking, etc.

External Event is defined as a non-university organization hosting an event in campus function space for any other purpose not listed above. These events must be organized through Events and Conference Services, and will require a contract and a certificate of insurance.

Points of clarification for determining category of event:

- If being paid for by means other than Coppin Department Codes and Accounts, an event cannot be considered a University Event. Depending on other factors, it is either an **Affiliated Event or an External Event**.
- For an event to be considered “Hosted,” a member of the sponsoring University’s academic or administrative unit must be A) designated as the “University Host,” B) involved in planning the

program; C) In attendance for the event in its entirety to ensure that it is conducted in accordance with University policies and safe/proper use of spaces.

- The final decision of category of event is at the sole discretion of Events and Conference Services.

Meetings and events, including meeting or event set-up and breakdown, may only be held during the agreed upon times.

E) CANCELLATIONS
